INTERVIEW SUMMARY

Sir:

This communication is in response to the Examiner's Interview Summary mailed July 18, 2007, and is filed within the one-month period for response.

Applicant's representative, Thomas S. Reynolds, conducted a personal interview with the Examiner on July 12, 2007. The 37 C.F.R. § 1.132 Declaration filed on June 19, 2007 was discussed as well as the benefits that spin-welding has introduced to the chromatography cartridge industry. In addition, Applicant's representative discussed the pending claims in the application and the prior art references. Applicant's representative also left a DVD with the Examiner illustrating the differences between a spin-welded cartridge and a non-spin-welded cartridge.

An agreement with respect to the claims was not reached during the Interview.

Respectfully submitted,

/Julie A. Haut/
